Another Wonder.
UNDERGROUND GALLERY OF ANCIENT PAINTINGS.
[Special to the Cincinnati Commercial.]
VINCENTS, IND., September 6.—On yesterday an old gentleman by the name of Shassner, living about eight miles southeast of here, called on the country long known as Chimney-Pierre Hill (the name was derived from an ancient pier or pillar of stone, now demolished, about fifteen feet high, shaped like a chimney, with a sunken square in the base, as though cut out for a fireplace, and supposed by many to be a relic of the wonderful prehistoric people, the Atlanteans-Builders, came to the city and declared the wonderful discovery of a cavern cut in the solid rock, which, if as represented, will take its place as among the most remarkable and wonderful of archaeological discoveries.

The account of the discovery as given by Mr. Shassner is in substance as follows: Early yesterday morning he started out in search of a sheep which had strayed from his flock. Following along a little path through the hazel skirts the foot of the immense bald table of rock known as Chimney-Pierre, he heard the fainting of a sheep apparently from behind a great standing splinter from the mass, until a broad fissure parted the two. Thinking his animal had become entangled in this fissure, he sought to steal around the fragment next to a precipitous bluff, when he lost his footing and fell over a smooth, flat stone, concealed in a dense mass of undergrowth. To his intense alarm the stone began to sink beneath the surface, and before he could recover from his fall he found himself in the midst of a vestibule cut out of the solid rock, the walls of which were adorned with the most marvellous and colorful paintings of men and animals. The ceiling, which was domed-shaped, and about eleven feet above the floor, was adorned with the figure of a giant-sized man in the act of placing faggots in what appeared to be designed to represent the entrance to the cavern. The figures of animals he says he never saw even pictured—huge tusked and trunked beasts like elephants, with masses of shaggy hair falling about their heads and limbs, and with tusks and horns of a size which he could not comprehend from their figures. In the midst of this throng of wild beasts, upon a yellow background, is delineated the form of a man, dressed in some kind of a vehicle, much like a horse-drawn carriage, and with a driver. Mr. Shassner's description of an ancient painting, which he says he saw, is as follows: The whole of these paintings, which could not be read. On one facade of this prehistoric temple (for such it must have been) this artist of antiquity had depicted birds and fowls, curious and gorgeous—score after score of them, says Mr. Shassner, and which he could not comprehend from their figures. W. W. Fowler, of Guilford, Connecticut, who recently died from paralysis caused by a fall from his wagon, illustrated in his life how "unmerciful disaster" may befall a man, and also how bravely humanity can bear up under the ills to which it is exposed. Accidents of this kind are not infrequently met with in our country. The colors he describes as peculiarly charming and bright. Your correspondent and a party of scientific gentlemen will make a careful examination of this remarkable cavern, when further interesting facts will be detailed.

THE THEATRE.—The Gilberts appeared again at the Theatre last night, and repeated the programme of Thursday night, "My Uncle's Will," the opening comedy, was very pleasantly presented, and was highly enjoyed by the audience. The farce, as we have already stated, is a familiar one to our people, having been played by amateurs in Richmond, as well as by professionals, on several occasions. It is, however, well worth seeing, and Miss Belle Gilbert as Florence Marlowe, Mr. James M. Gilbert as Charles Clamman, and Mr. David R. Young as Mr. Barker, acted their parts most acceptably.

Mr. Brown has a good company, take it all in all, and it is a pleasure to say so. Our readers are entitled to know what deserves their patronage and what is meritorious. Indiscriminate puffing is both offensive and unjust to them, and it is not indulged in in these columns. They can rest assured that the performance will be no less successful than it is deserving and commendable.

The performance last night concluded with the musical burlesque comedy "Mosquitoes" (titled down—a decided improvement on the Thursday night's rendition. Much of the play is ridiculous, but very amusing and satirical. The slang expressions in the burlesque are new to our theatre-goers, but we suppose they must be tolerated until we finally get back to the refinement and chaste performances of other days. We hope that day is not far off. The Algonquin signs of this improvement foreboded in some of the performances on the New York boards. When the revolution takes place our Theatre will be well patronized.

The stage-dressing of the company both in "My Uncle's Will" and in "Mosquitoes" was creditable. Miss Belle Gilbert's costume was quite handsome. The performances of Miss Laura Russell and Mr. Emery were also very enjoyable, and, altogether, the entertainment was a good one. This afternoon at the matinee the bill of last night will be repeated, and to-night Pink Domino will conclude the engagement of the Gilberts in this city.

THE TONIC, QUININE, IS PECULIARLY BENEFICIAL to the teeth and gums. J. E. ATKINSON'S Quinine Tonic-Powder is one of the best means of preserving the teeth and purifying the breath.

MULTITUDES OF PEOPLE REQUIRE AN ALTERATION in the healthy action of their system and correct the derangements that creep into it. AYER'S SARSAPARILLA tones and vitalizes the blood, and restores the vigor of health.

MANY PERSONS ABUSE THE HAIR BY BURNING it with alcoholic washes and plastering it with grease, which has no affinity for the skin. BURNETT'S COCOANUT, a compound of coconut oil, is a real hair restorer, and is peculiarly adapted to its various conditions.
